## THE OLD RELIABLE

There is no substitute

Trouble Started by Editor's Mexican Dog.

Corbin News: The other day just as we had got comfortably seated in our sanctum, and the reverberating cry of "copy" had died away, we collected our faculties for an article on "Femine Heroism."

A whole retinue passed before our mind, Deborah, Penelope, Joan of Arc, Queen Elizabeth, Mrs. Carrie Nation, etc. But while we were forming into well-rounded sentences the heroic deeds of each one, a terrific screech reached our ears from the sidewalk just by our door.

Thinking that the fire alarm had been turned on, or that murder was being committed in our village, we dropped our quill, turned over the paste pot and made for the street.

On reaching the door we saw two spy maidens of about thirty winters perched on the top plank of the fence, holding an arm full of skirts and other female apparel. They were shouting, "O you ugly thing! you horrid creature; go away, now do."

At first we could not realize what was the matter, but we soon discovered that our new Mexican pup had playfully treed them. He stood barking with all his might, looking just like he was skinned and greased. He evidently had never seen a real American girl, and those two maidens had never seen a Mexican dog. We whistled him off, and assured them that it was only "mine little doggie."

They were soon persuaded to come down and preceded on their way.

By this time we had forgotten the cause of the disturbance and were watching the town heroines disappear down the street. Suddenly from the composing room we heard a great commotion. On running in we learned that that infernal dog had chased a tiny mouse from under some rubbish, and it had scampered near one of the girls who was at work in the composing room. She was perched upon a tripod, screaming, "It went under there."

She had pined a whole stick of type, and was in eminent danger of tumbling down and breaking her neck. We drove the dog out and helped her down, all the time thinking how often are our hopes blighted. We had been in good tune for an article, but that dog and the inconstancy of human nature had spoiled it all. We gave the dog to the first farmer that came along and resolved never again to say a thing about the heroism of woman.

A Great Sensation.

There was a big sensation in Leesville, Ind. when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for consumption. He writes: "I endured in sufferable agony from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure. Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It's the perfect remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by all druggists. Trial bottles free."

Dr. L. Forbes Winslow, founder of the British Hospital for Mental Disorders and one of the greatest living authorities on lunacy, is fifty-nine. He is a lineal descendant of Edward Winslow, first Governor of New Plymouth, who left England in the Mayflower in 1620.

Senator Frye once refused to write his reminiscences for a magazine, declaring himself opposed to the telling by public men of "tales out of school."

## RICHEST WOMAN

In the World is Said to be Frauldin Krupp.

The most wealthy lady on earth is undoubtedly Miss or Frauldn Bertha Krupp, the eldest daughter of the late Herr Krupp, the famous German gunmaker.

This young lady is heiress under her late father's will to property valued at \$75,000,000—a stupendous sum for one little lady to possess.

The great gun factory, the plant machinery and acres of valuable property in the neighborhood of Essen become hers, and it is believed that their value amounts to fully this huge total.

But Frauldn Bertha will inherit another giant sum of money upon the death of her mother, Frau Krupp, for it is estimated that Herr Krupp accumulated during his lifetime a fortune of not less than \$150,000,000.

Little Bertha will find herself in the enviable position of being mistress of a dozen magnificent estates throughout Germany, coal mines and iron mines of her own to look after—to say nothing of huge interests in numerous mines dotted throughout Spain and Germany.

Over 40,000 workmen are hammering and perspiring in the Essen works turning her steel into gold, and the 150,000 inhabitants of that town are dependent on her for their living.

Besides being the richest, she is the busiest little woman in Germany.—Ex.

Secretary Cortelyou is one of the few remaining men in public life who affect the pompadour style of brushing the hair. Fifteen or eighteen years ago it seemed as if all mankind had the pompadour craze. When "Pompadour Jim" came on the stage every sport that was a sport wore his bristles rampant. The style is very becoming to Cortelyou. It enables him in serious reflection to run his fingers harrowlike over his head without disturbing its contour.

When President Roosevelt visits the Rocky Mountains this spring he has expressed his desire to climb Mount Shasta, the giant of the Sierran, which towers 14,410 feet above sea level.

## Y M C A Notes

John Lake, county Dep't Secretary, was a visitor over Sunday assisting in the county work.

Kirkville Association reports interesting meetings each Sunday.

"A Christian in Business" is the subject for the men's meeting Sunday. Some good talks may be expected.

The county secretaries of Central Kentucky will have a conference at Versailles, April 15, to discuss matters tending to the improvement.

## The Star of Bethlehem.

An interesting discussion is now on among English scientists with respect to the Star of Bethlehem. A London cablegram to the Chicago Inter-Ocean says: "David Forbes hazards the supposition that it was the comet called Halley's comet, which has an interval of approximately seventy-five years, ten months, and six days. It was last visible in October, 1835, and will probably, therefore, be seen again in 1911. Halley, who saw the comet in 1682, predicted its return in 1759. Several reappearances have been observed. Pompey's defeat of Mithridates in 152 B. C. was signalized by one appearance; Josephus mentions another at the destruction of Jerusalem, about 73 A. D. Mr. Forbes contends that one of the returns of the comet between these two dates must have been about the date of the birth of Christ. Some months before the birth the wise men saw his star in the east. The comet would then be on its course toward the sun, on its return six months later it would be in the zenith above Bethlehem about the end of December. If the subsequent dates are computed it will be noticed that the comet was apparently fifteen years out, and should have reappeared in 1820 instead of 1835. Mr. Forbes surmises this difficulty by remarking that it was not until the sixth century that Dionysius made out the present chronology, and that he then made an error of fifteen years, which became stereotyped. This year, therefore, should be 1888.

## EVER WATCHFUL

A Little Care Will Save the Reader Future Trouble.

Watch the kidney secretions, see that they have the amber hue of health. The discharges not excessive or infrequent.

Contain no brick-dust-like sediment. Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

Mr. John Zilets, City Auditor, residing at 731 Robert street, Newport, Ky., says: "A man who has never had back ache or kidney complaint in any of his many years can scarcely gauge the misery a sufferer endures who is annoyed day and night by this far too prevalent trouble. To all such my advice is procure Doan's Kidney Pills and take a course of the treatment. The result of the use of three boxes proved to me that the remedy is up to representations and deserves my unqualified endorsement."

For sale by all dealers. Price, 50c. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## Camp With Regulars.

A dispatch from Washington says: It is the intention of the war department officials to have all the state militia this year at the camps of instruction with the regular troops. There will be no state encampments as heretofore; Secretary Root and Gen. Corbin will soon begin the preparation of a comprehensive program whereby the reorganization of the militia will be taken up. The plan is proposed to give the militia the benefit of instructions from the regular army officers. Arrangements will be made for the transportation to and from the instruction camps. This work is being formed in connection with making effective the Dick militia bill, passed at the last regular session of congress. Instruction camps are now located at Fort Riley and Chickamauga Park and two additional ones will be selected.

## A Thoughtful Man.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at all drug stores.

## The Rev. George K. Morris.

A Baptist preacher of Cleveland, in addressing the Young Men's Christian Association the other day, expressed the opinion that a thief might enter heaven, but he had his doubts as to the ability of a dull preacher to get there.

## Gen. Fitzhugh Lee.

Referring to Virginia's proposal to place a statue of Robert E. Lee in the national capitol, says he thinks they should honor Washington, the successful, as well as Lee, the defeated.
